Telegram Bot for PS VIBE - PS5 Gaming Lounge

Confidential - Internal Use Only

1. What is PS VIBE Sales Bot?

PS VIBE Sales Bot is a Telegram bot that helps you run the PS5 Gaming Lounge. With this bot, you can:

- Start and end gaming sessions (consoles)
- Record daily sales and food orders
- Check customer wallet balances
- Process member topups
- View the food and game menu
- Generate daily reports
- Track cash movements

The bot works inside Telegram. Just open @psvibe_sale_bot and press /start

Bot Status

The bot shows real-time console status at the top of the main menu: which consoles are Free, Active (in use), or Reserved.

2. Getting Started

Open Telegram and search for @psvibe_sale_bot or click the link. Press START or send /start command.

Main Menu Overview

Main Menu (after /start) [PlayStation] [Daily Sale] [Members]

The main menu has all the features you need. Each button opens a sub-menu or starts an action.

Main menu buttons:

[PlayStation]	Start/end gaming sessions, view console status
[Daily Sale]	Record a new daily sale (walk-in customer)
[Food Sale]	Sell food or drinks only (no console session)
[Food Menu]	View the food and drink menu with prices
[Members]	Member management: topup, check balance, history
[Games]	View the game library
[Bookings]	View and manage customer bookings
[Cash / Balance]	Check cash box balance
[Coupon]	Coupon system (generate and redeem)
[Reports]	Generate daily/monthly reports
[Attendance]	Staff attendance logging
[Referral]	Referral program for members
[Stock]	Inventory management
[Help]	Show help information

3. Console Sessions

This is the most important feature. You use it to:

- Start a customer's gaming session
- See how much time is left
- Add more time (extend)
- End the session

Starting a Session

1. Tap [PlayStation] on the main menu
2. Select the console (C-01 to C-10)
3. Select a game from the list (type game name if not listed)
4. Enter the duration in minutes
5. Confirm - the session starts and the timer begins

The bot will automatically remind you 5 minutes before the session ends. You can extend or end from the reminder.

During a Session

While a session is active, you can:

- View remaining time on the console status message
- Extend +15 or +30 minutes using inline buttons
- End the session early

Ending a Session

Tap the [End Session] button on the active console status or the reminder notification.

Always end the session in the bot before the customer leaves. This updates the dashboard and billing system.

4. Recording a Daily Sale

Use this when a customer wants to pay for their session or walk-in.

Steps

1. Tap [Daily Sale] on the main menu
2. Enter customer name (or type 'Guest')
3. Enter phone number (optional - can skip)
4. Enter the amount or duration in minutes
5. Select payment method: Cash / WavePay / KBZ Pay / AYA Pay
6. Confirm the sale - record is saved

Food Sale (Standalone)

To sell food or drinks without a gaming session:

1. Tap [Food Sale] on the main menu
2. Select items from the menu (Drinks, Noodles, etc.)
3. Choose quantity
4. Review and confirm
5. Select payment method

You can add food items during the regular Daily Sale flow too - just select food items before confirming.

5. Member Management

Topup (Add Balance)

1. Tap [Members] > [Topup] on the main menu
2. Select or enter the member name/phone
3. Enter the amount in Kyats
4. Select payment method
5. Confirm - minutes are added to the member's wallet

New phone numbers are automatically registered as new members during topup.

Check Balance

1. Tap [Members] > [Check Balance]
2. Enter the member's phone number or name
3. The bot shows the remaining minutes in the wallet

Check via Customer Bot

Customers can also check their balance directly using @psvibe_customer_bot by tapping [Balance Check] and entering their phone number.

6. Food Menu

The bot displays the food menu organized by category:

Menu Categories

Drinks: Water, Coca-Cola, Sprite, Sting, M-150, Red Bull,
Monster, Beer, Iced Coffee, Milk Tea, Fruit Juice, Soda

Instant Noodles: Regular, Spicy, Cup Noodles

Other: Snacks

How to View

Just tap [Food Menu] on the main menu. Each item shows its name, price, and an emoji icon.

How to Sell

Two ways to sell food:

- [Food Sale] - standalone food/drink purchase (no console)
- During [Daily Sale] - add food items as extras before confirming payment

7. Cash Management

Cash Balance

Tap [Cash / Balance] to see the current cash box balance. This shows:

- Total cash in the cash box
- Breakdown by account (KBZ, WavePay, etc.)

Cash Inject (Boss Only)

Use /inject when you add cash to the cash box (e.g., from a bank withdrawal).

Enter: amount > account > note/description

Cash Eject (Boss Only)

Use /eject when you remove cash from the cash box (e.g., deposit to bank, pay expenses).

Enter: amount > account > note/description

Inject and Eject are for tracking cash movements only. Boss-only commands (admin restricted).

8. Game Library

Tap [Games] to see all available games. Games are organized by:

- Console ID (e.g., C-01, C-02)
- Install type (Local / External HDD / Session)
- SSD vs non-SSD consoles

SSD games only show up on SSD-prefixed consoles. Dual-screen consoles show games for both screens.

9. Coupon System

1. Tap [Coupon] during the payment process
2. Enter the coupon code when prompted
3. The system checks if the coupon is valid (not expired, has balance)
4. If valid, the coupon amount is deducted from the bill
5. Coupon is marked as used

Expired or already-used coupons will be rejected. Check the coupon code carefully.

10. Managing Bookings

Customers can book via @psvibe_customer_bot. These bookings appear in the bot for staff to manage.

Viewing Bookings

1. Tap [Bookings] on the main menu
2. See all pending and confirmed bookings
3. Select a booking to view details

Check-in a Customer

1. Find the booking in the list
2. Tap check-in / confirm
3. Session starts automatically with the booked game and duration

What Happens at Check-in

- Booking status changes to Active
- Console is marked in use
- Session timer starts
- Admin group gets a notification

11. Reports

Tap [Reports] to generate sales reports. You can choose:

- Daily report (today's sales summary)
- Monthly report
- Custom date range

The report shows:

- Total revenue
- Revenue by payment method
- Number of sessions
- Food sales
- Topup amounts

12. Quick Commands Reference

Type these commands directly in the chat (available 24/7):

/start	Show the main menu with all buttons
/help	Show help and basic instructions
/cancel	Cancel whatever you're doing and go back
/inject	Cash inject form (Boss only)
/eject	Cash eject form (Boss only)
/report	Generate today's sales report
/games	Show all available games
/members	Member management menu
/broadcast	Send message to all staff (Boss only)

13. Tips & Best Practices

1. Always start a session via the bot before the customer plays.
2. End the session in the bot BEFORE the customer leaves.
3. Check the console status regularly to know which consoles are free.
4. For walk-in customers without a booking, use Daily Sale.
5. Use Food Sale for food-only orders (not tied to a console).
6. Add a note when using Inject/Eject so you can track it later.
7. If the bot isn't responding, check if it shows 'Active' status.
8. You can cancel any operation by typing /cancel.

If Something Goes Wrong

If the bot stops responding or shows an error:

1. Wait a few seconds and try again
2. Send /cancel to reset the conversation
3. Send /start to get back to the main menu
4. If still not working, tell the Boss

14. Boss-Only Functions

These functions are only available to the Boss:

<code>/inject</code>	Add cash to the cash box. Track where the money comes from.
<code>/eject</code>	Remove cash from the cash box. Track where the money goes.
<code>/broadcast</code>	Send a message to ALL staff members at once.
<code>/discount</code>	Set a discount rate for promotions.
<code>/salary</code>	Payroll and salary management.
<code>/opex</code>	Record operating expenses.

These are for management use only. Staff accounts cannot access these commands.

15. Need Help?

If you have questions or need support:

- Ask the Boss directly in the admin group
- Check the admin group for announcements
- Send /help to the bot for basic commands
